

Request to List Herbicide-Sensitive Crop Locations

For a sensitive crop site to be listed on the Kansas Department of Agriculture website, the following criteria must be met:

- The crop is grown for commercial purposes and represents a legitimate source of income for the grower.
- The crop – grapes, cotton or tomatoes – is known for its propensity to be economically damaged by herbicides that volatilize readily.
- If it is an organic crop, it must be produced under an organic certification program.
- The grower requests that we publicize the location on this website.

This form should be used to add or make changes to the list. Please print, complete and **sign** the back of this form, and return it to:

Pesticide and Fertilizer Program
Kansas Department of Agriculture
109 SW 9th Street, Third Floor
Topeka, KS 66612

Herbicide-sensitive crops include vineyards, cotton, tomatoes, certified organic crops and greenhouse crops. Other crops may be included and will be reviewed on a case-by-case basis.

The locations of sensitive crops must be adequately identified. Provide a legal description, address or detailed directions. If you do not want to give a specific location, you must provide the county and nearest town plus a phone number where you can be reached. The objective is to give persons using herbicides the information they need to avoid damage to your herbicide-sensitive crop.

Name: _____ Address: _____

Phone: _____

Email: _____

Type of sensitive crop: _____

Location of sensitive crop (be specific and include county):

Do you want to be contacted before an herbicide is applied nearby? _____

If yes, what is the telephone number where you may be reached? _____

Type of sensitive crop: _____

Location of sensitive crop (be specific and include county):
